

The image displays two side-by-side screenshots of the TAXdo application interface. The left screenshot shows the 'Sign In' screen with a green TAXdo logo at the top. Below the logo are two input fields: 'User Name' and 'Password'. The 'Password' field includes a toggle icon (an eye) to show or hide the password. Below the input fields are three options: a checkbox for 'Remember Me!', a link for 'Forgot your password?', and a blue 'Login' button. The right screenshot shows the 'Welcome To TAXdo' screen. It features the same green TAXdo logo at the top, followed by the text 'Welcome To TAXdo' and a link 'Don't Have An Account Yet?' at the bottom.

# TaxDo Vs. Manual Return Preparation

## Automated Preparation with TaxDo

- No need to worry about the updated provisions as the software is regularly updated with the latest provision.
- Extensive prior knowledge not required.
- No need to worry about new forms.
- Error free computation.
- TIN Holder's information needs to be registered one time only.
- Previous file of the assessee is preserved online.
- It takes less time to prepare a return using automated software.
- Cloud based software, accessible from any device.
- Expert Assistance and IT Support is available.
- Affordable & Cost Efficient.

## Manual Preparation

- Need to carefully make sure all provisions have been duly applied. Difficult to stay updated round the year.
- Needs extensive prior knowledge.
- Need to carefully collect the right form.
- There is risk of computational/human error.
- TIN Holder's information needs to be manually entered multiple times.
- Hassle to preserve previous file of assessee. There is risk of losing previous records.
- Manually it takes more time to prepare a return.
- Need to face compatibility challenges while using excel file.
- Costly compared to automated preparation.
